Dear Rose Enthusiasts,

We write this in the summer heat with much to do in our rose nurseries, cut rose fields, and fruit farm. So without further ado, welcome to the 21st year of growing roses at Palatine and the rose lineup of 2019-2020.

We are happy to have added new Kordes cultivars to this years lineup which include the very floriferous and beautiful floribunda Fire Opal Kolorscape®. The equally floriferous and heat tolerant peachy shrub Soul Sister™ Sunbelt® is also part of this year's lineup. Last but not least, the climber Tangerine Skies™ Arborose®, with her glowing orange blooms, has joined us as well.

We have also added two new Meilland Hybrid Tea roses to the Palatine rose family. The much recognized Dee-Lish® with her deeply fragrant, pearly pink, cupped flowers, as well as Dark Knight™ boasting nearly black red/purple velvety flowers with a silky yellow reverse.

We have six of Delbard's Painter Series, a collection of very floriferous roses growing large clusters of blooms with stripes and splashes of colour. Alfred Sisley™ is burnt orange with creamy white stripes. Edgar Dugas® is amber yellow with stripes and splashes of raspberry red. Guy Savoy® is red with pink stripes. Olivier Roellinger® is bright yellow with pink stripes and specks, Paul Gauguin® is salmon pink with white stripes and Henri Matisse™ is dark pink with swirls of white stripes.

We are also developing our Supremely Singles collection. You will find bright pink Juanita™ in our ground cover selection. The delicate pink blends of Dainty Bess and the dark amber shades of Mrs Oakley Fisher adorn our Hybrid Teas. Pure white Escimo™ in our shrub collection and coral Butterfly can be found in our climbers. Single Roses have a great charm for their delicate and simple beauty and are attract pollinators.

As you look through the catalogue you will note that we have added a number of NEW! lovely rose cultivars beyond what we have noted here. Additionally, numerous roses that were not available last year have been propagated again this year and will be marked with the comment BACK!

As you may know we change our lineup every year in the hopes that you will find something fresh and new for your garden. We hope you will enjoy this year’s rose selection as much as we have enjoyed growing the roses for you.

Wishing you a thousand blooms!

From all of us at Palatine Fruit and Roses.
How to place your order

Please visit our website to order online at www.palatineroses.com. Ordering via fax or mail is also available using the included order form. We look forward to receiving your order!

Bare root order deadline

ORDER EARLY FOR BEST SELECTION!
- For fall pick-up and mail order please order before October 31, 2019
- For spring pick-up and mail order please order before March 15, 2020
- No changes to mail orders accepted after March 15, 2020

Mail order shipping dates

Fall orders will be shipped Mondays from November 11 to 18, 2019
Spring orders will be shipped Mondays from March 2 to April 27, 2020

Pick-up dates

Fall pick-up:
November 9 to 16, 2019

Groundcover, Landscape & Vigorosa® Roses

Groundcover and landscape roses are a perfect combination for disease resistance, predictable growth and flower production, all in one ground covering package. These roses are specially bred for easy maintenance and most have achieved ADR status, the most highly regarded rating system for disease resistance and overall plant health. Groundcover and landscape roses have a uniquely uniform growth habit and very floriferous bloom cycles making them an excellent choice for large beds or edges. They are very popular with landscapers and public parks.

Hybrid Tea

Hybrid Teas are the archetype of roses in the rose growing world and the most popular of all rose classes. These large flowers with long stems are a garden classic with typically single high centered flowers growing on each stem in upright bushes. Hybrid Tea roses bloom repeatedly and like to be deadheaded after each bloom.

Grandiflora

Grandiflora have large size blooms similar to the Hybrid Teas. They tend to have multiple blooms on a long stem. With their upright growth habit, Grandifloras are a unique combination of Hybrid Tea and Floribunda roses.

Floribunda

(\textit{Fire Opal Kolorscape®} shown)

Floribunda roses have medium to large sized blooms growing in multiple clusters. With an abundance of flowers and different blooming times, Floribunda roses will maintain colour all summer. Over the years the Kordes Fairy Tale roses have gained a formidable reputation for admirable vigour, healthy foliage and abundant flowering. In the meantime a number of new floribundas have joined the ranks of healthy roses that are perfect for gardeners new to the rose culture.

Remember!

Zone 5 and colder...
do not prune your roses back in fall.

(Florentina™ Arborose® shown)
Modern Shrub Roses

Modern shrub roses are a collection of roses that vary in size and in habit. Unlike Hybrid Teas which tend to make long canes, modern shrub roses tend to make shorter but more plentiful branches and are often as wide as they are high. They make an excellent addition within a flower bed and can also be used as borders and hedges. Their bushy habit, floriferous repeat blooms and ease of care are characteristics of this class of roses.

For the Love of Roses
Gems of the Past

For those of us that love the feel of antique-style gardens, the rose gems of the past not only offer the nostalgic feel of yester-year, but incredible fragrance, hardiness, and opulent flowering expressed in a large variety of bloom color, shape and size. Although most of these antique roses bloom only once, their flush is so magnificent that they are still sought after today. The habits of these historic roses vary from bushy, arching, to rambling / climbing and offer an outstanding winter effect with their decorative rose hips and some even with their thorns. Many are shade tolerant.

Rose Trees - Express Your Elegance

As in years past, we continue to carry our very own rose standards. The final double graft is 40" from the ground, making this an elegantly sized rose tree. Prices from $59.95.

Our selection includes:
- Chevy Chase
- Eden™
- Garden Party
- Iceberg
- South Africa® Sunbelt®
- Spectabilis®
Climbing & Rambling Roses

Climbing roses are dominated by their growth habit of long canes with the ability to climb up fences, over walls and to cover trellises, arbors and pergolas if properly trained and tied. Ramblers have softer wood and can scramble over other plants and depending on size can even grow into and intertwine with a tree.

(Tangerine Skies™ Arborose® shown)

What is the Rose Scent?

The rose scent is one of the most complex scents. Approximately 400 oil components have been identified. It has been said that not one human can actually smell all 400 chemicals of the rose scent. So next time you are in a debate with someone about what you smell there is a good chance you are both right.

If having deeply perfumed roses is a top priority for you, focus on roses that have received Perfume Awards. These are most likely to have a chemical mixture that the majority of people can enjoy and experience.

In the meantime, we thought you might enjoy this little perfume wheel. It certainly helps us identify what makes the rose scent fruity, citrusy, herby... Enjoy and remember to stop and smell the roses!

**Order by Mail or Fax:**

**Mail:** Palatine Fruit & Roses, 2108 Four Mile Creek Road
R.R.#3, Niagara-on-the-Lake, ON L0S 1J0

**Fax:** 905-468-8628

**Note for mail-order customers:** There is a **three rose plant minimum** per mail order.

We supply number one grade plants only, defined by a minimum of three strong branches coming from the bud graft. We warrant our plants to be true to name, to be healthy and viable when leaving our premises. We must be notified immediately upon receipt if our roses are not viable or if there is a miscount. Any claims for damage or loss in shipping must be made with the carrier. If plants fail to grow despite following our planting recommendations and adequate watering, we will replace or refund the plant at the charged cost. If any plant is proven to be untrue, we will replace or refund it at the charged cost. All claims must be made before August 30th of the shipping year. Shipping and handling charges are applicable on all replacements. **WE DO NOT GUARANTEE ROSES TO SURVIVE THE WINTER.**

(all prices in Canadian Dollars)

* For orders larger than 29 plants use the shipping rate of 29 roses and we will advise on the exact amount with the confirmation. Orders shipping to Hawaii and Alaska please inquire separately for rates.

BC & Newfoundland residence

In accordance with CFIA, British Columbia and Newfoundland residents will require a Movement Certificate. An additional fee of $12.00 will be charged on your order, in order to obtain the certificate.

Note to all our BC customers

To assure that our product arrives to your home in the same condition that it left our premises we reserve the right to refuse to ship roses in poor weather conditions and/or if no suitable methods of transportation can be agreed upon.

Fine Print for Canadian mail orders

All orders are based on first come, first served basis. We only ship bare root roses and require a three plant minimum. The shipping costs above include packaging and handling fees. Orders need to be paid in full prior to shipping. We reserve the right to adjust shipping date if the shipping time is deemed to be too risky due to weather conditions. Due to fuel surcharges and postal rate changes in January, the above represents our best estimate. If any changes need to be made we will contact you.

Mail order shipping dates

- Fall orders will be shipped Mondays from November 11 to 18, 2019.
- Spring orders will be shipped Mondays from March 2 to April 27, 2020.

We accept Visa, MasterCard, e-Transfer and certified cheque. A payment in full will be required to hold your order. Upon receipt of your payment your order will be confirmed. If you need to make alternate financial arrangements, please contact us.

ORDER EARLY FOR BEST SELECTION!
We supply number one grade plants only, defined by a minimum of three strong canes coming from the bud graft.

We warrant our plants to be true to name, to be healthy and viable when leaving our premises. We must be notified immediately upon receipt if our roses are not viable or if there is a miscount. Any claims for damage or loss in shipping must be made with the carrier. If plants fail to grow despite following our planting recommendations and adequate watering, we will replace or refund our plant at the charged cost. If any plant is proven to be untrue, we will replace or refund it at the charged cost. All claims must be made before August 30th of the shipping year. Shipping and handling charges are applicable on all replacements. We do not warrant our roses over the winter. For any claims please contact sales@palatineroses.com

**Shipping Method – Bare Root Roses Only**

We ship bare root roses via UPS ground. We also offer UPS three day select services which we may recommend depending the time of the year and ship to location. To determine your shipping cost using the available shipping method please locate the desired mode of transportation and match it up with the number of roses ordered.
